PROFILE

I'm a passionate software engineering intern seeking to gain hands-on experience and apply my knowledge in a professional setting. With a strong foundation in technology and problem-solving, I am eager to contribute to impactful projects and learn from skilled professionals. My goal is to refine my skills, collaborate with talented engineers, and grow into a valuable team member who can make meaningful contributions to Conwart's success.

Frameworks & Libraries

- React, MUI, Tailwind CSS, Bootstrap, Spring Boot, Hibernate, jQuery, Electron

Databases & Cloud

- MySQL, AWS

Project: King Restaurants Website

Created a responsive website for "King Restaurants" using HTML, CSS, and JavaScript. The site features a modern design with a user-friendly interface, showcasing the menu, services, and contact information. Key highlights include:

- Responsive Design: Optimized for desktops, tablets, and smartphones.
- Menu Section: Detailed listings of dishes with prices.
- Contact Form: Easy customer inquiries and reservations.
- Interactive Features: JavaScript enhancements like image sliders and booking forms.
- SEO Friendly: Implemented strategies for better search visibility.

This project enhanced my front-end development skills and provided practical experience in building a web application for a restaurant business.

<div>Project: EXPLORA Serendib Website</div>	<div>RECOMMENDATIONS</div>
<div>Developed a responsive website for "Explora Serandib," a tourism platform showcasing the best travel destinations in Sri Lanka. This project involved designing an immersive, user-friendly interface to promote scenic attractions, cultural sites, and travel experiences. Key features include:</div> <div><ul style="list-style-type: none">Responsive Design: Optimized for desktops, tablets, and smartphones.Menu Section: Detailed listings of dishes with prices.Contact Form: Easy customer inquiries and reservations.Interactive Features: JavaScript enhancements like image sliders and booking forms.SEO Friendly: Implemented strategies for better search visibility.</div> <div>This project enhanced my front-end development skills and provided practical experience in building a web application for a restaurant business.</div>	<div><div>Yasindu Sathsara (software engineer)</div><div>Hotcat Technologies / CEO</div><div>Phone : +94 77 506 7538</div><div>Email : hello@reallygreatsite.com</div></div>
